

Correctional Facility Construction Capabilities

SBA CERTIFIED SDVOSB | GENERAL CONSTRUCTION | ROOFING | SECURE FACILITY COORDINATION

Marino Government Solutions LLC provides prime contractor management for construction, repair, and roofing projects in active correctional environments. Led by Richard Marino, a retired corrections officer with military and correctional leadership experience, MGS understands that every work plan must protect security, accountability, continuity of operations, and the institution's chain of command. Our proposed construction team adds established roofing, disaster-repair, remediation, and full-service construction capabilities.

CORE CONSTRUCTION CAPABILITIES

- Roof inspection support, leak investigation, repair, replacement, flashing, penetrations, drainage, and emergency weather protection
- General construction, facility repairs, alterations, renovations, and restoration
- Roofing and building-envelope coordination for occupied, security-sensitive facilities
- Water, fire, and mold damage repair and remediation coordination
- Subcontractor scheduling, site logistics, quality assurance, safety documentation, and contract closeout

PRIME CONTRACTOR MANAGEMENT

- Single point of accountability for the agency
- Schedule, submittal, RFI, change, invoice, and closeout control
- Daily coordination with facility operations and construction personnel
- Performance tracking against scope, schedule, safety, and quality requirements

SECURE FACILITY ADVANTAGE

- Firsthand understanding of controlled entry, staff screening, escort rules, restricted areas, and secure perimeters
- Tool, key, material, equipment, and debris accountability to reduce contraband and security risks
- Work sequencing around counts, lockdowns, inmate movement, controlled access, and institutional schedules
- Disciplined workforce conduct, communication, and immediate compliance with correctional staff direction
- Security-aware staging, deliveries, shutdowns, daily cleanup, and emergency response planning

WHY MARINO GOVERNMENT SOLUTIONS

- Retired corrections officer leadership with practical institutional knowledge
- SBA-certified service-disabled veteran-owned small business
- Mission-focused oversight supported by qualified construction partners
- Clear documentation, responsive communication, and responsible stewardship

SECURITY INFORMED EXECUTION MGS approaches correctional construction as an operational-security mission as well as a building project. The work is planned around institutional control, not treated as an ordinary commercial jobsite.
